2008 Southern California Linux Expo (SCALE)
Call for dotORG Exhibitors
February 9th - 10th, 2008

The So Cal Linux Expo is proud to announce the 6th Annual Southern California Linux Expo scheduled for February 9th - 10th, 2008 at the Westin Hotel near the Los Angeles International Airport. Wide spread acceptance and encouragement for the user community has established SCALE as a premiere conference in the Southern California region.

Continuing our efforts to promote open source, we invite you to share your work on Free and Open Source projects with the rest of the community as well as exchange ideas with some leading experts in these fields. Details about previous editions of SCALE can be found at http://www.socallinuxexpo.org

The proposals should be submitted in the form of a 1-page extended abstract comprising:

1. Name of group or open source project.

2. A group logo and contact information including name and email address. (logo needed for publishing on the website)

3. What will be shown? A list or a brief description of the main points to be presented should be submitted. Please include enough detail that will enable the committee to evaluate the proposal.

4. Describe how your participation will benefit both the Southern California Linux Expo and the attendees.

Submission formats in txt and pdf will be accepted. Exhibitors will be given an 8'x10' booth in the SCALE exhibit hall which will include one 6 foot table, two chairs, one network drop and one 500 watt electrical outlet.

As we are attempting to increase open source awareness it is highly desirable that demonstrations be shown using free and open source software. All proposals are to be sent to gareth@socallinuxexpo.org.
